## Summary

B.Tech student with a strong foundation in Data Structures, Web Development, and Machine Learning. Completed a 6-week Applied AI Internship (CSRBOX, AICTE, IBM SkillsBuild) and earned MongoDB Certified Associate Developer credential. Focused on building scalable applications and solving real-world problems using modern technologies.

## Technical Experience

### Practical Development & Self-Learning

- Developed multiple web applications using HTML, CSS, JavaScript, and MySQL
- Solved 50+ Data Structures problems, strengthening problem-solving and algorithmic skills
- Designed relational databases with normalization and optimized query performance

## Projects

### FitFlex — Fitness Web Application [GitHub]

- Developed a fitness tracking web application using React.js for managing workouts
- Applied Data Structures concepts (filtering, sorting, searching) for efficient data handling
- Built responsive and interactive UI to enhance user experience

### Cookbook Web Application — React, JSON Server [GitHub]

- Built a recipe-sharing web application using React and JSON Server
- Implemented dynamic UI and data fetching for real-time updates
- Designed responsive layout for improved usability

### Sign Language to Text — Machine Learning [GitHub]

- Developed a real-time sign language to text conversion system using Machine Learning
- Processed gesture inputs and applied classification algorithms
- Integrated frontend with ML model for user interaction

### Job Portal System — MySQL, DBMS

- Designed and implemented a relational database with normalized schema
- Developed CRUD operations for job listings and applications
- Optimized queries for efficient data retrieval

## Education

|             |                                                |
|-------------|------------------------------------------------|
| 2024 - 2028 | B.Tech at <b>SRM University</b> (CGPA: 7.6/10) |
| 2022        | Class 12th <b>Narayana College</b> (75%)       |
| 2020        | Class 10th <b>Narayana School</b> (90%)        |

## Skills

**Languages:** C++, Python, JavaScript, SQL

**Frontend:** HTML, CSS, JavaScript, React

**Database:** MySQL, MongoDB

**Tools:** Git, GitHub, VS Code

**Core Concepts:** Data Structures, Algorithms, OOP, DBMS

## Achievements

### MongoDB Certified Associate Developer — MongoDB Inc. (2026)

- Earned industry-recognized certification validating MongoDB database skills
- Gained hands-on knowledge of data modeling, CRUD operations, indexing, and performance optimization

### Applied AI Internship — CSRBOX (AICTE + IBM SkillsBuild) (2026)

- Successfully completed a 6-week internship focused on real-world AI applications
- Gained practical experience in AI concepts, model building, and problem-solving

### Introduction to Generative AI (Google) — 2026

- Completed Google-certified course covering AI concepts, models, and real-world applications
